PROFESSIONAL EMPLOYMENT RECORD

February 2002 to Present

The Brannon Corporation, Tyler, Texas

Engineer-In-Training; Aquatics Design Division

Job responsibilities include project design of aquatic facilities such as spraygrounds, natatoriums, and aquatic parks. Tasks include the structural engineering, civil engineering and planning for aquatic parks and coordination with all other trades. Designs include new construction, retrofitting and renovation of water parks and pools.

March 2001 to February 2002

Mountain Design Group, Evergreen, Colorado

Engineer-In-Training; Intern Architect

Responsible for the architectural, structural and civil engineering design of several large-scale homes and condominium facilities in several locations throughout Colorado. Experience includes design using void and carton forming to support foundations in expansive soils, and helical pier supports for structural stabilization. Additional experience involving the structural analysis of Denver's World Trade Center Towers and the Republic Plaza building for retrofitting structural members to support new, additional loads.

January 2000 to March 2001

Brockette-Davis-Drake, Inc., Dallas, Texas

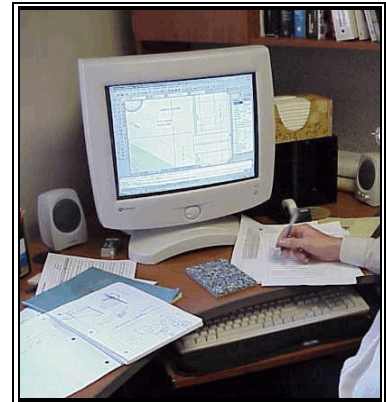

Engineer-In-Training; Associate Engineer

Responsible for project management and design of various water and wastewater replacement designs for the Dallas area. Tasks included design of water and wastewater mains, street drainage and street replacement designs, and storm sewer relocation designs. Additional experience in the civil engineering design of multi-family residences and several subdivision in the metroplex area.
